ARCHITECTURAL TECHNOLOGY AT DEAKIN – New in 2013, the Bachelor of Architectural Technology is a unique offering from Deakin University’s School of Architecture and Building in partnership with The Gordon’s Advanced Design and Building Department. The course is made up of three years of full-time study – the first two primarily at The Gordon and the final year at Deakin (Geelong Waterfront Campus). On completion students are conferred with the degree from Deakin University. Graduates will be professionally qualified architectural technologists with diverse and practical skills, giving them the capability to be involved in commercial, industrial or domestic projects covering the scope of construction. Architectural technology is a highly regarded profession in the UK, Ireland and Europe and architectural technologists play a major role on construction projects in these regions. With career opportunities opening up in Australia, the B. Architectural Technology can provide graduates with an exciting career path. Prerequisites: 3/4 English; To find out more go to: www.deakin.edu.au/scitech. To apply for the course for 2013, the VTAC Code is 16101 (CSP).
